### **GEOGRAPH APPOINTED ESRI GOLD PARTNER** *Esri Partner Network*

**EASLEY, SC** – December 6, 2022 – GEOGRAPH Technologies, LLC, a South Carolina based geographic information system (GIS) software provider, has recently been designated as a Gold Partner within the Esri Partner Network. Esri, a global market leader in GIS software, location intelligence, and mapping, and GEOGRAPH have been affiliated since GEOGRAPH’s founding in 2018. GEOGRAPH was previously a Silver Partner.

GEOGRAPH’s CrescentLink Desktop and Web Experience software, are both extensions on the Esri ArcGIS system. The software provides broadband network providers, electric cooperatives, and other companies with fiber optic networks, a framework to better manage their fiber maps and to assist in improving return on investment of fiber assets.

Bruce Smith, GEOGRAPH Co-Founder and CEO states “We are proud to have earned Esri Gold Partner level within the Esri Partner Network. Esri’s focus on Web based GIS increases the ability for businesses of all kinds to access and share data that can be utilized to improve performance and results”.

Randall Rene, Esri Telecommunications & Cable Industry Solutions Specialist stated “We at Esri are excited to be a part of GEOGRAPH’s journey as they continually provide outstanding resources designed to bridge the digital divide and improve technical workflows. GEOGRAPH’s commitment to providing modern Web GIS solutions, coupled with a dedicated customer service team, has proven success and we see great value in increasing our partnership level to Gold.”

###
