GREY PITTMAN RECEIVES "FIBER UNDER 40" AWARD

Presented by Fiber Forward Magazine of the Fiber Broadband Association

EASLEY, SC – Dec 6, 2022 – GEOGRAPH Technologies, LLC is proud to announce Grey Pittman has received a Fiber Under 40 Award from *Fiber Forward* magazine, a publication of the Fiber Broadband Association. He is one of 21 award winners recognized as a young emerging leader in the fiber broadband industry, and represents GEOGRAPH, a Fiber Broadband Association member company based in Easley, SC.

Pittman is recognized for making a substantial contribution to the company and to the community at large. In his role at GEOGRAPH he has focused on educating the company's customer base while spending time to enhance the training, product support, and software implementation processes of the organization.

Grey stated "I am excited to accept this honor and am truly grateful to the Fiber Broadband Association and all my colleagues at GEOGRAPH. This is a growing industry with renewed focus on broadband equity from the federal government to provide widespread and cost-effective broadband. There is truly no one in America who isn't touched by these broadband initiatives. I'm happy to be a part of those dedicating themselves toward making meaningful contributions to customers and to the fiber broadband industry as a whole".

Grey has been with GEOGRAPH for four years and was recently promoted to Director of Customer Experience. He holds a Bachelor of Arts degree in History and Political Science from the University of South Carolina. He is married to wife, Sarah, and has a rescue dog Boomer. He enjoys traveling, playing rugby, and Cross-Fit training in his spare time.
